Bill Ellena and Ontario location acknowledged by Honeywell International, Inc. for outstanding energy performance

Ontario, CA – CPFD is not only the Military Distributor who delivers the best fill rates in our Industry and outstanding customer service, we are also strategically focused on energy conservation and going greener. This is the right decision for our company and for our community!

From the use of more energy efficient tractors to reducing energy consumption through the use of solar panels and a recently completed “state of the art” frozen warehouse, CPFD is focused on being a good corporate citizen. Our frozen facility utilizes the latest information technology systems to ensure energy usage is reduced, particularly during peak periods. And our efforts are being recognized. Edison Electric has long considered CPFD as a role model for their corporate clients and now we are being recognized by Honeywell International for our outstanding energy performance.

Honeywell **Utility Solutions**

To whom it may concern:

The purpose of this letter is to acknowledge Coastal Pacific Food Distribution in Ontario, CA for outstanding energy performance. The initiatives of Bill Ellena, facility manager, have gone above and beyond standard energy practices. He is personally passionate about strategic energy efforts, which has lead to a ton of savings and lower energy usage. He is currently working with Honeywell to participate in Automated Demand Response and utilizing the utility incentive program (TATI) to pay for the cost of this upgrade. While working with Bill Ellena, he has displayed a superior level of knowledge in regard to energy opportunities that he has pursued in his facility including a solar electric system, energy efficient refrigeration equipment, HVAC and lighting. He understands his facility and is constantly making adjustments to improve its energy performance. Throughout my experience working with facilities in Southern California, I can confidently say the CPFD is a top energy performer. Congratulations, Bill for an excellent job.

Sincerely,

Amrit Gill, Honeywell International, Inc
